the instructor's solutions manual to accompany Atkins Physical Chemistry provides detailed solutions to the exercises and the even numbered discussion questions and problems that feature in the ninth edition of Atkins Physical Chemistry. The manual is intended for instructors and consists of material that is not available to undergraduates. The manual is free to all adopters of the main text.

This book arms engineers with the tools to apply key physics concepts in the field. A number of the key figures in the new edition are revised to provide a more inviting and informative treatment. The figures are broken into component parts with supporting commentary so that they can more readily see the key ideas. Material from the Flying Circus is incorporated into the chapter opener, puzzlers, sample problems, examples, and end of chapter problems to make the subject more engaging. Checkpoints enable them to check their understanding of a question with some reasoning based on the narrative or sample problem they just read. Sample problems also demonstrate how engineers can solve problems with reasoned solutions. Includes parts 1-4, part 5 in Fundamentals of Physics Extended.

Full solutions to all end of chapter exercises in the text are provided. With an instructor's permission, this manual may be made available to students.
